Versatile, mobile & modular

The new organizations set up within companies are driving profound changes and the need for shared and modular spaces.

ELLIOT meets these expectations:

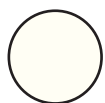

- Adjustable in height, it adapts to the size of each user and allows him to work while remaining active.
- Equipped with an advanced control (smartphone connectivity), it allows workstation sharing in «flex office» mode and allows each user to customize it as needed.
- Mobile and available as an option on battery, it allows to quickly modulate the spaces according to the needs.
- Equipped with the corner table, it allows several assemblies to be made into a collaborative bench or improvised meeting table.
