

Efficient and fast assembly !
An environmentally friendly product

From 769 € HT
Structure 650 € HT

UGO, our new all-integrated system, marks a major evolution in electrical furniture. No more protruding cables and laborious assembly. With UGO, it's a 5 minutes installation and 2 cables to connect (control and power). It also benefits from the latest technological advances in motorization and a fully connected control (memory, impulse mode, Bluetooth connection, visual alerts).

ECO-CONCEPTION & CSR :

The most technologically advanced solutions are part of a responsible and reasoned conception approach.

Melamine trays are made in France and made from over 90% of «**recycled wood**» raw materials.

Packaging consisting of 99% recyclable materials.

Rate of recycled raw materials : 49,58% (structure 23,12%)

Rate of recyclability : 99,45% (structure 94,18%)

Economic impact : 78% France / 22% Europe (engine)

Optimised UGO structure – 24 kg – 10-20% less raw materials for leading performance: 140 kg load, 38 mm/s speed.

Packaging and logistic processing carried out with an adapted company (on mission) local.
